Ceuta and Melilla...

Inquisitions overlook the Muslims once again

The Spanish and global Media reported a few days ago the news of the arrest of eight youth on charges of recruiting the Muslim youth for jihad in Bilad Al-Sham, by the Spanish occupation security forces, to bring back to us the painful memories of the inquisitions and remind the Muslims of their occupation of this city and its total sovereignty over the Muslims in it, by arresting, questioning, torturing and imprisoning without being accountable.

The arrest of those youth on the charge of supporting terrorism doesn't change anything of the reality which was uttered by the Spanish interior minister himself, when he said: "we are not speaking about soldiers participating in the Syrian conflict, but rather about recruiting Islamist fighters to commit assaults", he meant attacks in Spain or Europe which he expressed by saying "those terrorists are a threat to the European countries because they are well trained and when they return to their countries they can work alone or by coordinating with the branch of Al-Qaeda which they belong to and commit assaults".

It is the Pharaonic logic which rules the world today through the United Nations organization (to crush the oppressed peoples) when a Muslim nation is annihilated in full view of the world and no one moves to save it from the great powers which installed itself a guardian on humanity, since WWII, but when the sons of Islam move from ardor for their brothers who are subjected to annihilation with prohibited and permitted weapons, the local and international suppression agencies gather against them and violate all their sanctities, under the pretext of their affiliation or support of terrorism which is meant and based on Islam in the time of suppression and crusader Pharaonic logic.

What is really unfortunate in these operations, is that they were committed by total coordination with the armies of "Amir Al-Mu'minin", excuse me "Amir Al-Hashshashin/drug addicts", who wasn't ashamed for only losing plundered cities of Ceuta and Melilla as well as Al-Andalus, rather his Iman and responsibilities as "Amir Al-Mu'minin" forced him to stand firmly and coordinate sincerely with the occupier to capture his countrymen and subjects as have been admitted by the Spanish interior minister after this operation when he mentioned "similar networks are active in other European countries alluding the good cooperation between Spain, Morocco, France and Portugal".

And what adds insult to injury the silence of the media financed by our money about the crimes committed against our sons and brothers, since the press that reported the news didn't comment on it except by a rough reporting of the news like it is not related to the son of the Aqeeda, country and tribe which certainly encourages the suppression agencies to continue its crimes, without having any consideration for any responses from the Arab and Muslim public which is absent behind the betrayal of the media for the message of delivering the truth which it was hired for by the taxpayer and the real owner of the resources which is the Muslim Ummah not the robbing rulers who bought the conscience of the journalists except for a few freemen, who are barely heard amidst the fuss of the horrible media machine of the aggressors and their agents in the region.

The time has come for these oppressed peoples to break the wall of silence and challenge the whip of the tormentor and before that it frees itself from slavery to anyone except for Allah Al-Wahid Al-Qahar, to retrieve its dignity and right to defend their causes and prisoners and sovereignty on its crucial decisions and its resources, after decades of the tampering of his

highness and majesty which time and events showed that they are just small officers in the armies of the occupier which controls our fate from a distance, on one condition that we have sincere intention and be ready to sacrifice, because the world doesn't respect except those with thick feet and decisive wills (and Allah is the master of His affair, but most people do not know).
